WALDEN ENVIRONMENT DBA WALDEN FAMILY SERVICES FOSTER FAMILY AGENCY CONTRACT COMPLIANCE MONITORING REVIEW

The Department of Children and Family Services (DCFS) Contracts Administration Division (CAD) conducted a contract compliance review of Walden Environment dba Walden Family Services Foster Family Agency (the FFA) in May 2014. The FFA has one licensed office in the Third Supervisorial District and an office in Riverside County. Both offices provide services to the County of Los Angeles DCFS placed children. According to the FFA's program statement, its mission is to "support the lives of children and families through lasting relationships; and does so by providing advocacy and placement services for abused, neglected, and at-risk children in need of out-of-home placement."

At the time of the review, the FFA supervised 111 DCFS placed children in 84 Certified Foster Homes. The placed children's overall average length of placement was three months and their average age was nine.

SUMMARY

During CAD's review, the interviewed children generally reported: feeling safe at the FFA's Certified Foster Homes; having been provided with good care and appropriate services; being comfortable in their environment; and being treated with respect and dignity. The Certified Foster Parents reported they were supported by the FFA staff in their efforts to provide care, supervision and service delivery to the children placed in their homes.

The FFA was in full compliance with 5 of 11 areas of our contract compliance review: Educational and Workforce Readiness; Psychotropic Medication; Personal Rights and Social/Emotional Well-Being; Discharged Children; and Personnel Records.

CAD noted deficiencies in the areas of: Licensure/Contract Requirements, related to Community Care Licensing (CCL) citations as a result of deficiencies and findings; Certified Foster Homes related to a lack of criminal clearances; Facility and Environment, related to the exterior, common areas, and children's bedrooms not being well maintained, not having sufficient reading materials, or computers, not conducting disaster drills at least every six months, and not maintaining

"To Enrich Lives Through Effective and Caring Service"

appropriate and comprehensive monetary and clothing allowance logs; Maintenance of Required Documentation and Service Delivery, related to the FFA's failure to obtain DCFS Children's Social Workers' signatures authorizing implementation of children's Needs and Services Plan (NSP); not developing timely initial and updated NSPs with the child's participation, not providing therapeutic services, not documenting monthly contacts with the County Children's Social Worker, and not developing timely and comprehensive quarterly reports; Health and Medical Needs, related to an untimely initial medical examination; and Personal Needs/Survival and Economic Well-Being, related to not providing clothing allowances, not conducting clothing inventories, not providing clean towels and adequate personal care items, not providing weekly allowances, and not assisting in the development and maintenance of their Life Books/Photo Albums.

Attached are the details of our review.

REVIEW OF REPORT

On June 26, 2014, Chinelo Maduiké, DCFS CAD, held an Exit Conference with Walden Family Services staff: Sue Evans, Chief Operating Officer; Muriel Gaudin, Program Director; and Karen Crossan, Social Worker Supervisor. DCFS staff included: Leticia Foster and Sherman Mickle, CAD. The FFA representatives were in agreement with the review findings and recommendations; were receptive to implementing systemic changes to improve compliance with regulatory standards; and to address the noted deficiencies in a Corrective Action Plan (CAP).

A copy of this report has been sent to the Auditor-Controller and Community Care Licensing.

The FFA provided the attached approved CAP addressing the recommendations noted in this compliance report. The Out-of-Home Care Management Division (OHCMD) has provided on-going technical assistance.

On April 4, 2015, CAD conducted a follow-up visit and verified the FFA's implementation of its CAP addressing the recommendations in this report.

If you have any questions, your staff may contact Aldo Marin, Board Relations Manager, at (213) 351-5530.

**WALDEN FAMILY SERVICES FOSTER FAMILY AGENCY
CONTRACT COMPLIANCE MONITORING REVIEW
FISCAL YEAR 2013-2014**

SCOPE OF REVIEW

The following report is based on a “point in time” monitoring visit. This compliance report addresses findings noted during the May 2014 review. The purpose of this review was to assess Walden Environment dba Walden Family Services Foster Family Agency’s (the FFA’s) compliance with its County contract and State regulations and included a review of the FFA’s program statement, as well as internal administrative policies and procedures. The monitoring review covered the following 11 areas:

- Licensure/Contract Requirements,
- Certified Foster Homes,
- Facility and Environment,
- Maintenance of Required Documentation and Service Delivery,
- Educational and Workforce Readiness,
- Health and Medical Needs,
- Psychotropic Medication,
- Personal Rights and Social Emotional Well-Being,
- Personal Needs/Survival and Economic Well-Being,
- Discharged Children, and
- Personnel Records.

For the purposes of this review, 14 County of Los Angeles placed children were selected for the sample. The Contracts Administration Division (CAD) interviewed each child and reviewed their case files to assess the care and services they received. There were 3 sampled children that were not interviewed, as they were too young. These 3 children were observed in their Certified Foster Homes (CFHs) and they appeared to be comfortable and the Certified Foster Parents (CFPs) were observed to be attuned to the needs of the children. Additionally, 4 discharged children’s files were reviewed to assess the FFA’s compliance with permanency efforts. At the time of the review, 5 placed children were prescribed psychotropic medication. CAD reviewed the case files to assess for timeliness of Psychotropic Medication Authorizations and to confirm the required documentation of psychiatric monitoring.

CAD reviewed 7 CFP files and five staff files for compliance with Title 22 regulations and County contract requirements. Interviews were conducted with the CFPs to assess the quality of care and supervision provided to the placed children.

CONTRACTUAL COMPLIANCE

CAD found the following areas to be out of compliance:

Licensure/Contract Requirements

- Community Care Licensing (CCL) cited the FFA.

CCL cited the FFA, as a result of deficiencies and findings, for a complaint received on May 14, 2013. According to the report dated May 6, 2014, CCL substantiated a personal rights violation when it was discovered that the CFP sprayed a child down with a hose for “bad behavior” (having a tantrum).

CCL requested a Plan of Correction (POC), which included decertification of the CFH by May 7, 2014. The FFA submitted a written POC to CCL stating that the agency decertified the home effective May 6, 2013. CCL received a copy of the decertification letter. The POC was approved and CCL cleared the deficiency on May 6, 2014. This referral was investigated by a Department of Children and Family Services (DCFS) Emergency Response Children’s Social Worker (ER CSW) and the allegation of General Neglect was deemed Substantiated. DCFS Out-of-Home Care Investigation Section (OHCIS) requested and received CCL’s approved POC and the home was placed on an Indefinite Hold.

CCL cited the FFA, as a result of deficiencies and findings, for a complaint received on June 17, 2013. According to the report dated June 24, 2013, CCL substantiated a personal rights violation when it was discovered that a CFP was grabbing, yelling, and squeezing the foster children.

CCL requested a POC, which included the FFA provide personal rights re-training to the CFPs. The POC also required that proof of the training be provided to CCL prior to August 19, 2013. The FFA submitted a written POC to CCL stating the agency decertified the CFH effective July 22, 2013 and agreed to re-train all their CFPs. CCL received a copy of the decertification letter on July 22, 2013 and re-training documents on September 20, 2013. The POC was approved and CCL cleared the deficiency on December 30, 2013. This referral was investigated by a DCFS ER CSW and deemed the allegation of Emotional Abuse as Inconclusive and General Neglect as Substantiated. DCFS OHCIS also conducted an investigation. The FFA’s approved POC was requested and received by DCFS OHCIS. As a result, DCFS OHCIS placed the home on an Indefinite Hold.

Recommendation:

The FFA’s management shall ensure that:

1. The FFA is compliant with Title 22 regulations, County contract requirements and free from CCL citations.

Certified Foster Homes

- Criminal clearances for other adults in the home were not maintained.

The children in one CFH were left in the care of adults that were not criminally cleared. These adults were not the substitute care providers on record. This was brought to the attention of the FFA representative during the review process. It should be noted that the FFA representative initiated an incident report the next day and assured that the agency will make an unannounced visit to the CFH to further investigate the alleged inappropriate adult supervision. The FFA staff made an unannounced visit to the CFH to complete a home inspection on June 27, 2014 and provided the CFP with additional fingerprinting forms for substitute care providers and visitors. On July 3, 2014, the FFA conducted a follow up visit to the CFH and provided re-training to the foster mother regarding

the use of alternate caregivers. The FFA also indicated that they will continue to monitor the family closely.

Recommendation:

The FFA's management shall ensure that:

2. Criminal clearances for other adults in the home are maintained.

Facility and Environment

- Exterior/grounds were not well maintained.

In CFH #6, the exterior grounds were not well maintained. CAD noted an exposed "dead" electrical wire in the side yard and a large empty cardboard box in the backyard, which posed a safety hazard to the young children placed in the home. CAD immediately requested that the CFP discard the empty box.

During the monitoring review period, the FFA supervisor made an unannounced visit to the above mentioned CFH on June 14, 2014 and verified that the exposed "dead" wire has been corrected and the home was free of any safety hazards.

- Common areas were not well maintained.

In the same CFH, noted above, the common areas were not well maintained as the children's bathroom smelled of cat waste emanating from the litter box placed in the bathroom. Additionally, knives were locked up in a little box in the kitchen; however, the key was hung up in the kitchen and readily accessible to the children.

On June 27, 2014, the FFA staff conducted an unannounced visit to this CFH and found the home to be odor-free and the knives remained locked and the key no longer accessible to the children.

- Children's bedrooms were not well maintained.

In CFH#3, the children's bedrooms were not well maintained. In bedroom #1, the bedding was worn and dirty. The pillows in the room were not clean and one of the pillows was ripped with exposed stuffing. This bedroom also had an odor of urine. In bedroom #2, no clothes were hanging in the children's closet nor was there a dresser drawer for the two-year old child's clothes. The child's clothes were kept in a few trash bags in the closet. Additionally, the baby crib in the foster mother's room did not have adequate/appropriate bedding for the one-year old.

The FFA provided photo verification on June 16, 2014, of the condition of the bedrooms. In bedroom #1, there were new sets of beddings, pillows and towels for the children's use. In bedroom #2, there were children's clothes hanging in the closet of sufficient quantity. Further, the FFA staff received training on June 20, 2014, regarding home inspections and standards for CFHs. Documentation of this training was provided to CAD.

- Sufficient and appropriate educational resources were not maintained.

The CFH #3 lacked sufficient and appropriate reading materials and educational resources in the home as there were no toys or books for the children. On June 16, 2014, the FFA provided pictures showing toys and books in the home.

The CFH #6 also lacked sufficient and appropriate educational resources; specifically, it did not have a working computer for the children's use. The FFA provided the CFP with a computer on July 3, 2014.

- CFP did not conduct and maintain disaster drill logs.

Documentation of fire drills and earthquake emergency kits were missing in CFHs #3, #5, and #6.

The FFA will conduct spot checks to ensure that fire drills are conducted and emergency kits are maintained.

- Money and clothing allowance logs were not maintained.

The CFH #3 did not maintain a monetary allowance log. Also CFHs #5 and #6 had inadequate clothing and allowance documentation logs. The records were sporadic and not complete.

The FFA will conduct periodic unannounced reviews to ensure all CFHs are in compliance with money and clothing allowance logs.

Recommendations:

The FFA's management shall ensure that:

3. Exterior grounds are well maintained.
4. Common areas are well maintained.
5. Children's bedrooms and /interior are well maintained.
6. Sufficient and appropriate educational resources are maintained.
7. CFPs conduct disaster drills and documentation is maintained.
8. Monetary and clothing allowance logs are maintained.

Maintenance of Required Documentation/Service Delivery

- FFA did not obtain or document efforts to obtain the County Children's Social Worker's (CSW's) authorization to implement the Needs and Services Plan (NSP).

In 2 of 15 files reviewed, the County CSW's authorization to implement the NSP was not timely. The FFA did not document efforts to obtain the CSW's authorization to implement the NSPs within the required timeframes.

- FFA Social Workers did not develop timely initial NSPs with child's participation.

For all the initial NSPs reviewed, the FFA social workers did not develop timely NSPs with the participation of age appropriate children.

- FFA Social Worker's did not develop timely updated NSPs with child's participation.

Although the updated NSPs were developed, they were not signed timely. In 13 of 15 NSPs reviewed, the children did not sign.

- Therapeutic services were not received.

Two children needed therapeutic speech services, but were not receiving the services. During the review visit, two four year-old children were observed to not have clear speech, as would be expected for their age. This was brought to the attention of the FFA representative. Documentation was received on June 20, 2014, demonstrating therapy services for both children had been initiated.

- County CSW's monthly contacts were not documented in child's case file.

In 3 of 15 cases, the County CSW's monthly contacts were not documented and included in the NSPs.

- Quarterly reports were not timely.

Although the FFA social workers completed comprehensive quarterly reports, all signatures were late. In one quarterly report, the CSW's signature, date, and efforts to obtain CSW's signature appeared altered.

During the monitoring review period, the FFA representative stated their social workers will be re-trained on NSP/quarterly report requirements and ensure that all contacts with DCFS CSWs are documented in the children's case files. FFA representatives attended the refresher NSP training on July 11, 2014, offered by the Out-of-Home Care Management Division (OHCMD).

Recommendation

The FFA's management shall ensure that:

9. FFA obtains or document efforts to obtain the County CSW's authorization to implement the NSP.
10. FFA Social Workers develop timely initial NSPs with child's participation.
11. FFA Social Workers develop timely updated NSPs with child's participation.
12. Therapeutic services are provided.
13. County CSW's monthly contacts are documented in child's case file.
14. Quarterly reports are timely.

Health and Medical Needs:

- An initial medical examination was not conducted timely.

One child's initial medical appointment was late. The child was placed on March 17, 2014 and the initial appointment was scheduled for April 28, 2014. The appointment was not made on time by the FFA. The April 28, 2014 appointment was cancelled by the medical office and the child was subsequently seen on May 16, 2014.

Recommendation

The FFA's management shall ensure that:

15. Initial medical examinations are conducted timely.

Personal Needs/Survival and Economic Well-Being

- Children's clothing inventories were not of adequate quantity and quality.

In CFH #3, the children were too young to be interviewed about their clothing; however; it was observed that the children's on-going clothing inventory was not adequate and did not indicate the required clothing was provided. On June 16, 2014, the FFA provided receipts and pictures of clothes purchased for the children.

- Provision of a sufficient supply of clean towels and personal care items meeting ethnic needs was not made.

It was also observed in CFH #3 that the children were not provided with clean towels along with adequate personal care items. The children had old towels for their daily use and the bathroom was

missing towels, wash cloths, toothpaste, toothbrush, lotion and other toiletries etc. Further, there was not an adequate/appropriate baby tub and toiletries (wash cloth, lotion, shampoo, body wash etc.) for the one year-old. On June 16, 2014, the FFA provided receipts and pictures of personal items purchased for the children.

- Children are not provided with minimum weekly monetary allowance.

Three children in CFH #6 did not receive their weekly allowance consistently and the records were not clear on the amount received. The FFA re-trained staff members at the Los Angeles office regarding allowance policies on July 1, 2014, and the Riverside office on July 7, 2014.

- Children were not encouraged/assisted with Life Book/Photo Album.

In CFHs #3 and #6, the children were not assisted with developing and maintaining a Life Book/Photo Album. All children placed in these CFHs did not have pictures or Life Books/Photo Albums.

During the Exit Conference, the FFA's representative stated that they would re-train the CFPs on the importance of creating and maintaining Life Books or Photo Albums. On July 3, 2014, staff members at the Los Angeles office were re-trained on the importance of keeping Life Book's current and the Riverside office was re-trained on July 7, 2014.

Recommendations:

The FFA's management shall ensure that:

16. On-going clothing inventories are of adequate quantity and quality.
17. Provision of sufficient supply of clean towels and personal care items meeting ethnic needs are maintained.
18. Minimum weekly monetary allowance is provided.
19. Encouragement/assistance with Life Books/Photo Albums is provided..

PRIOR YEAR FOLLOW-UP FROM DCFS OUT-OF HOME DIVISION (OHCMD)'S FOSTER FAMILY AGENCY CONTRACT COMPLIANCE MONITORING REVIEW

The OHCMD's last compliance report dated August 6, 2013, identified 2 recommendations.

Results

Based on the results of the current review, the FFA did not fully implement the 2 previous recommendations for which they were to ensure that:

- All certified foster homes are in compliance with Title 22 regulations and documentation is maintained in the certified foster parent files.

- Placed children have timely initial medical examinations and are documented in the children's files.

Recommendation:

The FFA management shall ensure that:

20. The outstanding recommendations from the 2012–2013 monitoring report dated August 6, 2013, which are noted in this report as recommendations 1 and 15 are fully implemented.

At the Exit Conference, the FFA representatives expressed their desire to remain in compliance with Title 22 regulations and Contract requirements. The FFA representatives further stated the agency will train the FFA Social Workers on NSP requirements and ensure that all contacts with DCFS CSWs are documented in the children's case files.

CAD conducted a follow-up visit on April 4, 2015 and the FFA implemented all of the recommendations noted in this report. The FFA representatives will continue to conduct periodic checks to monitor on-going compliance with newly implemented protocols. CAD will continue to assess implementation of the recommendations during our next compliance review. The OHCMD will provide on-going technical support prior to the next review.

LA County Annual Monitoring Review Revised CAP

Date: 11/21/14

Re: FFA Monitoring Review Field Exit Summary from 6/26/2014

Section: I. LICENSURE/CONTRACT REQUIREMENTS: #4

Walden had 2 substantiated CCL complaints in the LA office (Bernardo: Conduct Inimical 11/30/13, Thomas: neglect 6/25/13) and 1 substantiated complaint in the Riverside office (Summers: personal rights 7/30/13).
